KEVIN BRODERICK

OBJECTIVE

Obtain a ski-industry position that allows me to contribute to organizational success while continuing to expand my industry knowledge and skill set.

EXPERIENCE

IT COORDINATOR, KILLINGTON MOUNTAIN SCHOOL KILLINGTON, VT 2007 - PRESENT
COMMUNICATIONS COORDINATOR, 2009 - PRESENT
SKI COACH, 2007 - 2010

Managed all computer and network infrastructure, including Linux-based network and Asterisk-based phone system, for 120 users with heterogenous client devices. Managed electronic marketing presence (weekly email newsletter, web site, and social media presence). Wrote and edited marketing and communications materials. Provided photography services as needed and available; maintained organizational photo library, including keywording of assets. Taught classes including computer applications, graphic design, and computer programming, based on both my curricula and others' curricula. Collaborated with weekend and full-time coaches while working with J1 and J2 athletes competing at the state and regional level. Supervised student-athletes in dorm.

IT MANAGER, BOLTON VALLEY RESORT BOLTON, VT 2003 - 2007

Handled strategic and tactical decisions for business-critical network, working with Director of Finance and others to maximize efficacy while remaining within budget. Managed Microsoft Windows-based network, PBX system, and multi-unit cable TV distribution system, working with outside consultants and leveraging other technologies, such as Linux-based VPN server, as appropriate. Consulted with third-party POS vendor and provided development assistance for SQL-backed point of sale with Visual Basic front end. Provided user-level support for business applications and customized POS applications. Collaborated with other departments on special projects. Worked in other areas of the resort as needed, including guest services, ski school, and ski patrol.

SKI COACH, GOULD/SUNDAY RIVER SKI RACING BETHEL, ME 2001 - 2003

Provided coaching coverage as needed during college breaks; worked with athletes of various age groups and stages of development (weekend-only skiers new to ski racing through FIS skiers racing at the national and international level). Provided systems setup, support, and documentation for digital video hardware and software. Assisted Director of Skiing in analysis of appropriate applications for new technology and associated budgetary support. Attained USSA coaching certification.

EDUCATION

Saint Michael's College, Colchester, VT — BS Computer Science and English Literature
